Laboratory of infectious diseases. NIH National
June 1st, 2020 - The NIAID Laboratory of Infectious Diseases (LID) has a long history of
discovering new agents of viral diseases and developing innovative vaccines and
treatments, such as Flumist, a nasal spray influenza vaccine; Synagis, a preventative
treatment for respiratory syncytial virus; and Havrix, a hepatitis A vaccine licensed by
GlaxoSmithKline.

Clinical laboratory limswiki
May 25th, 2020 - A clinical laboratory sometimes referred
to as a medical laboratory is a laboratory where tests are
done on clinical specimens in order to get information
about the health of a patient as pertaining to the
diagnosis, treatment, and prevention of disease. The clinical
laboratory improvement amendments (CLIA) program defines a
clinical medical laboratory as a facility that performs
testing.
